Making progress together

Dear Reader

We are delighted that you are interested in LGT, the private bank of the Princely Family of Liechtenstein, and our services.

Our compass is that of a family-owned business. We have a strong corporate culture and shared values, and we aim to think and act holistically and with a long-term perspective. With a combination of confidence, a sense of responsibility and skill, the Princely House of Liechtenstein has built a diversified portfolio of successful companies and investments.

As our client, you have the opportunity to invest alongside our owner family and benefit from the expertise that LGT has built over decades of managing portfolios for the Princely House. In addition to traditional asset classes, our investment expertise includes private equity and impact investing – segments that the Princely Family started to invest in very early on and very successfully.

Creating long-term value requires innovation and collaboration – across borders and companies. We therefore work with carefully selected experts and leverage our investment expertise and data analysis using sophisticated technological applications.

Optimal implementation

When it comes to how your investments are implemented, you have various possibilities to choose from. If you opt for an advisory mandate, we will provide you with investment proposals to help you make well-founded investment decisions. How we practise sustainability

We aim to create value and make a positive contribution to the environment and society. Our Sustainability Strategy 2030 sets binding targets to this end. We also want to contribute to the achievement of the UN's Sustainable Development Goals through our activities.

Being a responsible investor

As a general rule, we avoid investments that pose significant environmental, social and governance (ESG) risks. We support clients in making their own substantial contribution to overcoming global challenges. A wide range of instruments are available to this end, from portfolio management mandates with a focus on sustainability to the LGT Sustainability Rating.

Doing business sustainably

By 2030, we want to reduce our net emissions from operations and investments to zero. When it comes to society, we are committed to fair access to education, healthcare systems and personal development. As an employer, we place great importance on ensuring a strong corporate culture, trust and cultural openness.

Access to education and basic healthcare: LGT Venture Philanthropy is committed to improving the quality of life of disadvantaged people in Africa and Asia.

Solutions to global challenges

Climate change and social inequality are among the greatest challenges of our time. With the two complementary approaches of impact investing and philanthropy, we want to contribute to solving these problems.
