INDIAN EQUITY MARKET

- Indian equity markets closed with little change as investors weighed rising U.S.-Iran tensions and awaited key U.S. inflation data for May 2026 for fresh cues on the future interest rate trajectory. While stable crude oil prices and a cooling rupee provided some support, persistent foreign institutional investor (FII) outflows and concerns over a delayed monsoon kept investor sentiment cautious.
- Key benchmark indices BSE SENSEX gained 0.09% and Nifty 50 lost 0.12% to close at 73,983.18 and 23,214.95 respectively.
- On the BSE sectoral front, BSE Fast Moving Consumer Goods was the only gainer, up 0.84%. BSE Telecommunication was the major loser, down 1.98% followed by BSE Metal, down 1.87% and BSE Oil & Gas, down 1.77%.

CORPORATE NEWS

- Meta Platforms, Inc. and CleanMax Enviro Energy Solutions Ltd. announced a partnership for over 900 MW of renewable energy capacity in India. As part of the collaboration, the companies will support the development of 837 MW of new solar and wind capacity across Rajasthan and Karnataka.
- Larsen & Toubro is betting big on automation, robotics, and technology-led solutions to scale up construction activities, as increasing manpower alone may not be a viable option for growth.
- Facebook parent Meta said it has tied up with Reliance Industries to build the U.S. company's first AI-powered data centre in India, a 168-megawatt facility located in Jamnagar.

GLOBAL EQUITY MARKET

- The U.S. equity markets closed mixed as gains in technology sector stocks supported benchmarks, while geopolitical tensions in the Middle East and fragile ceasefire efforts between Iran and Israel kept investor sentiment cautious alongside elevated oil prices and continued global economic uncertainty affecting broader market direction.
- European equity markets closed mixed as Middle East tensions and elevated oil prices weighed on sentiment, while easing conflict concerns provided limited support for investors.

INDIAN DERIVATIVES MARKET

- Nifty Jun 2026 Futures stood at 23,240.10, a premium of 25.15 points above the spot closing of 23,214.95. The turnover on NSE's Futures and Options segment fell to Rs.6,237.60 crore on June 10, 2026, compared with Rs.3,24,159.88 crore on June 09, 2026.
